Cheshire & The Wirral Primary Update

Autumn 2022

Welcome Back!

We hope you have had a positive start to the new academic year. Thank you to everyone who has already attended one of our courses and thanks for such positive feedback! We look forward to working with more schools as the year progresses.

NEW

Teach Computing subsidies have renewed!

Did you know that state-funded schools in Cheshire and Wirral are entitled to one subsidised training course per academic year & FREE Twilight CPD? Subsidies renewed in September!

This means that there is funding to cover your supply costs!

Check out our courses for this academic year on the next pages of our autumn newsletter. You can find further information on subsidies here.

If you have any questions get in touch using the details at the bottom of the page.

Are you signed up for the Bebras Challenge?

7th - 18th November 2022

The Bebras Computing Challenge introduces computational thinking to pupils from years 2 to 6. It is designed to get children excited about computing. Each child answers questions that focus on computational and logical thinking. It is completed online in your own school.

Teach Computing

LATEST NEWS

BOOK NOW Primary Computing Leader Meeting

Join us for our upcoming computing leader meeting to find out the latest news in computing, meet like-minded teachers from other schools and share tips and ideas for use in the classroom and across school.

Thursday 3rd November 2022 - Sign up here!

BOOK NOW Computing Quality Framework

Join us to find out more about how your school can gain an accreditation in computing using the Computing Quality Framework from The National Centre for Computing Education (NCCE). The Computing Quality Framework is intended to help schools review their progress in developing the computing curriculum. We will walk you through each aspect of the framework, help you to access the NCCE's wide range of resources, report successes, support your progress and work towards your accreditation.

Launch date: Thursday 1st December 2022 - Sign up here!

BOOK NOW NEW Barefoot Workshop

NEW

Barefoot Computing have a new FREE workshop Making the Most of Barefoot

You can also sign up for the following free workshops: Early Years Workshops, Programming in Scratch Workshops and Computational thinking workshops

Various dates - Sign up here!
